3) I also have my own e-store

<https://www.vector-painter.com/>

You will find the same files here as in the Etsy store, but at discounted prices, since I do not have to pay additional fees for the marketplace. For residents from Europe, the price will be on average 20% less. Wholesale promocodes also work here.

PATREON

4) For those who often make purchases of laser files, it will be beneficial to subscribe to my Patreon page.

Patreon is a site for independent artists like me. I get a small subscription fee from my subscribers, and in return I give them access to my content, in my case some laser files. It turns out something like one designer who works for many people. I hope that it will be beneficial for everybody. This is all from \$ 2, \$ 5 or \$ 10 monthly by choice.
